Good day AJ

Hope all is well.

Please let me know when I can give you a call for a bit more background to the capacity building session that we want to have with the fisherman in Gansbaai.

Regards
Andrae

Hello Pierre,

Always happy to help! Let me know where and when (a week or so in advance) and I should be able to come and give a talk.

AJ

Dear AJ

CapeNature is proactively engaging with a large group of anglers from Gansbaai. These anglers utilize the CapeNature managed coastal reserves and are effectively “our eyes and ears” along the coastline.

We have formalised access tracks to the beach areas and are now carrying our education and awareness programmes with them.

We intent to provide presentations/talks in Gansbaai on sand dune movement and management, turtle strandings and would really like you or somebody from your section to provide a talk on sandy beaches and the role of kelp as ecosystem drivers both in the sea and on the beaches.

The event will take place over a weekend towards the end of March or in April. If you agree to be part of this process Andrae will contact, you with additional details.

Regards

Pierre
